

# WARNING: YOUR RESUME HAS 6 SECONDS TO LIVE

## Why Our Writing Services Excel

- **We Have Insider Knowledge.** Few resume (or LinkedIn) writing services have writers who are also experienced hiring managers. PhoenixHR LLC has decades of experience in *both* resume writing *and* human resources. We have deconstructed thousands of resumes and performed hundreds of in-depth job interviews to identify the best candidates for positions from entry-level through executive. We apply this HR "insider knowledge" to create superior resumes.
- **We're Creative.** Unlike other resume services or "do-it-yourself" resume software, PhoenixHR LLC does not use templates or predefined content. Our live, interactive Skills Analysis Interview goes beyond prepared questionnaires to examine your unique work background and uncover vital job abilities and accomplishments you may have overlooked or don't know how to communicate effectively.
- **We Work Smarter.** Thanks to our HR "insider knowledge", we know how recruiters use LinkedIn and the key differences between an effective resume and an effective LinkedIn profile. We use this knowledge to **customize** your LinkedIn profile and give it **maximum visibility to recruiters**.

## WHAT WE DO

*Custom LinkedIn & resume writing  
that connects people with success.*

To win interviews, your resume must answer three employer questions effectively:

1. Why should I interview you?
2. What can you do for me?
3. What makes you the best candidate for the job?

Another challenge: according to recent studies, recruiters and hiring managers spend as little as *SIX SECONDS* to determine if your resume is interview-worthy.

PhoenixHR LLC combines decades of resume writing and HR experience with a unique Skills Analysis Interview to create an affordable, powerful resume that communicates your unique job skills clearly and concisely in the no-nonsense terms employers expect.
